

VIGNA RATHOD

Lead UI/UX Designer

8460821631 | Vignarathod122@gmail.com | LinkedIn - Vigna Rathod | Portfolio - Vigna Rathod

PROFESSIONAL SUMMARY

Lead UI/UX Designer with 6+ years of experience driving end-to-end design across healthcare, fintech, SaaS, analytics, and e-commerce. Proven track record of leading design teams, establishing design systems from scratch, and translating complex research into intuitive, high-impact products. Skilled at aligning design decisions with measurable business outcomes and bringing structure to ambiguous problems at scale.

TOOLS & SKILLS

Design & Prototyping	Figma, Figma Make, Framer
AI Tools	ChatGPT, Claude, Figma Make
Research & Testing	Hotjar, Google Analytics, UserTesting, Optimal Workshop
Collaboration & Handoff	Notion, Jira, Confluence, Miro
Design Systems	Component libraries, atomic design, cross-platform consistency
Core Competencies	User Research, Usability Testing, Information Architecture, Wireframing, High-Fidelity Prototyping, Design System Management, AI-Augmented Design Workflow, Team Leadership, Stakeholder Communication, Data-Driven Design

WORK EXPERIENCE

Lead UI/UX Designer

Oct 2023 - Present

Amlicomm — Bangalore, Karnataka

Leading UX for an enterprise omnichannel communication platform across web and mobile, plus a B2B analytics product visualising user engagement data.

- Architected the end-to-end UX for an omnichannel platform from 0 to 1, establishing the design system, component library, and cross-channel interaction patterns adopted across web and mobile.
- Designed an analytics dashboard suite that surfaced actionable behaviour insights, reducing the time stakeholders spent interpreting data reports by ~40%.
- Led a team of 3 designers, introducing design critique and documentation practices that improved output consistency and reduced design-to-dev revision cycles by 30%.
- Partnered with product and engineering leads to define a design QA process, ensuring high-fidelity specs were accurately implemented across all releases.
- Integrated AI tools (ChatGPT, Claude, Figma Make) into the workflow for concept generation, microcopy, research synthesis, persona creation, and prompt-based prototyping — cutting early-stage exploration time by ~35%.

Sr. UI/UX Designer

Jun 2023 - Aug 2023

Actyv.ai — Bangalore, Karnataka

Drove experience improvements across a supply chain financing platform, making complex financial workflows accessible to non-technical business users.

- Identified critical friction points in onboarding and transaction flows through heuristic evaluation and user interviews, delivering a prioritised redesign roadmap to senior leadership.
- Delivered high-fidelity prototypes and detailed design specs within tight timelines under an accelerated delivery schedule.

Sr. UI/UX Designer

Jul 2022 – Apr 2023

Tcules UX Studio – Ahmedabad, Gujarat

Led the full design lifecycle for a UK-based healthcare client's patient management platform, from discovery to post-launch, managing a team of 2–3 designers.

- Spearheaded discovery with 15+ stakeholder and user interviews, competitive benchmarking, and journey mapping that shaped product strategy and information architecture.
- Designed a patient and clinician-facing interface, iterating from low-fidelity wireframes to tested, high-fidelity prototypes across 4 design sprints.
- Managed and mentored a team of 2–3 junior designers, running reviews and ensuring delivery aligned with client expectations and timelines.
- Implemented post-launch monitoring with Google Analytics and Hotjar; redesigned a key drop-off in the appointment booking flow, improving task completion by ~25%.

UI/UX Designer

Jan 2020 – Jun 2022

Actonate IT Solutions – Vadodara, Gujarat

Designed across a portfolio of SaaS, CRM, and e-commerce projects from research to handoff, growing into a cross-functional design lead.

- Designed CRM and data analytics SaaS products from the ground up, creating scalable UI components and visual standards reused across multiple client products.
- Led UX for 3+ desktop and mobile e-commerce platforms, applying conversion-focused principles that improved add-to-cart and checkout completion rates.
- Ran ongoing user testing across healthcare, fintech, and retail, synthesising findings into actionable improvements and reusable handoff documentation.

Product Design Intern – Akuva Infotech, Bangalore, Karnataka

Jan 2019 – Apr 2019

Product Design Intern – Jyoti CNC Automation Ltd., Rajkot, Gujarat

Jun 2018 – Aug 2018

EDUCATION

Bachelor in Product Design (B.Des)

2015 – 2019

Unitedworld Institute of Design, Gandhinagar, Gujarat
